nish the music for the parade when the code bill is repealed and the army of unnecessary employes begins its march from the corncrib back to private occupations.

"The housewives of Lincoln have kept their coal bills and each one knows how much of the total saving of \$150,000 for coal came to each particular household. They know how much they have saved on ice, how much they have saved on gas and the amount of the rebate checks when they got back the overcharge from the gas company.

"They have been among Candidate Bryan's most enthusiastic supporters and they know, too, that he has been on the women's side of every issue that has come up in politics. The women, too, are too practical to be fooled by the high tariff sophistry. They are experts in home mathematics. When they find that the enormous sum of \$3,000,000,000 to \$4,000,000,000 was added to the burden of the masses by increase in the price of tariff protected goods, they go to figuring. They divide the amount by the population, approximately 100,000,000, and find that it amounts to between \$30 and \$40 for each man, woman and child, or from \$150 to \$200 per family of five.

"Then they calculate the use they can make of this sum. When a Republican husband says to his wife, 'My dear, I wish I could afford to give you and the children a little vacation at some inexpensive summer resort, but we can't really spare the money' the wife replies, 'Why not let me have the amount that you are sending down east every year to help the tariff barons take their wives and children to Bar Harbor in the summer time, Palm Beach in the winter time, and to Europe between seasons?'

"The Nebraska wife who is compelled to deny herself vacations which she has earned is not jealous of the wives to whom her husband has been contributing, because she does not know them and she knows that her husband will never get within gunshot of them, but she cannot help but feel just a little sad because he divides his affections between her and these unknown beneficiaries of his generosity.

"If the tariff law was so worked out that the farmers could pick out the eastern wives to whose happiness they have been contributing and send the money direct, the correspondence would soon be intercepted by their better halves."

TIME TO HOLLER "ENOUGH"

"In concluding one of his speeches today, he used a new story after illustrating the means of securing relief, by reference to the old way of fighting when the best man pounded the whipped man until the latter hollered 'Enough,' saying, 'If the people of Nebraska feel that they have been pounded enough by Republicans' extravagance, they will have a chance to holler 'Enough' on the seventh of November, and can do so by putting the 'X' before the names of Democratic candidates, both state and national.

"But," he added, "some of the taxpayers may not be ready to holler 'Enough.' They may be like the westerner who stopped, for a few days at an eastern hotel. When the bill was handed him, he was amazed at the amount, and addressing the clerk, said, 'Guess again, I've got more than that.'

"Now, if there are any Nebraska taxpayers who feel that they are not paying taxes enough if they feel that they still have some left that ought to be taken and refuse to vote for relief, I know the Republican leaders enough to know that the taxpayers will be pounded until they do holler 'Enough.' Why try to see how long you can hold out after you're whipped?"

Rupture Kills 7,000 Annually

Seven thousand persons each year are laid away—the burial certificate being marked "Rupture." Why? Because the unfortunate ones had neglected themselves or had been merely taking care of the sign (swelling) of the affliction and paying no attention to the cause. What are you doing? Are you neglecting yourself by wearing a truss, appliance, or whatever name you choose to call it? At best, the truss is only a makeshift—a false prop against a collapsing wall—and cannot be expected to act as more than a mere mechanical support. The binding pressure retards blood circulation, thus robbing the weakened muscles of that which they need most—nourishment.

But science has found a way, and every truss sufferer in the land is invited to make a FREE test right in the privacy of their own home. The PLAPAO method is unquestionably the most scientific, logical and successful self-treatment for rupture the world has ever known.

The PLAPAO PAD when adhering closely to the body cannot possibly slip or shift out of place, therefore, cannot chafe or pinch. Soft as velvet—easy to apply—inexpensive. To be used whilst you work and whilst you sleep. No straps, buckles or springs attached.

Learn how to close the hernial opening as nature intended so the rupture CAN'T come down. Send your name today to PLAPAO CO., Block 1338, St. Louis, Mo., for FREE trial Plapao and the information necessary.
